Preventive Care Options

You can add one of our preventive care coverage options for a little more each month. Each one has a list of covered services, and each service has a set maximum annual benefit amount. There's no deductible or co-insurance amount. These benefits are available as soon as your plan is effective.

Things like vaccines, flea/heartworm prevention, and dental cleanings can help keep your pet from getting sick. Other services like regular check-ups and wellness screenings let your veterinarian detect health problems in the early stages, which can mean a better outcome for your pet. If you're already paying for your pet's preventive care, why not get cash back for it?
